To Whom It May Concern,

Recently (winter of 2009), I had Rosselli Roofing remove an old wooden roof and replace it with modern shingles. They also replaced six skylights in this roof.

They did a wonderful job. They were very courteous and as timely as the bad weather would permit. The new roof is a beautiful addition to and beautifies my home. The workmanship was first class. They also advised me on skylight replacement and secured and installed beautiful new ones.

In conclusion, I can highly recommend Rosselli Roofing & Siding.
